

Market Dojo General Admin Settings Checklist

Although there are specific settings relating to each module, the settings below relate to usage of Market Dojo as a whole. In order to get the most out of Market Dojo we recommend you checking that you've completed the following:

Recommended

- Set up Host Groups and added the relevant users
- Configured initial Host Permissions to give the right users Admin permissions and access to one another's events
- Updated Display Settings to show company branding and the desired visibility of events / onboarding

Optional

- Set up desired Integrations (e.g. Per Angusta, SSO)
- Linked a report to the Reporting tab (we can create bespoke reports on your behalf - contact you)
- Set up Participant Groups and added existing participants
